

How to connect to Wi-Fi network using Taskbar

To connect to a Wi-Fi network through the taskbar, use these steps:

1. Click the **Network** icon in the bottom-right corner of the taskbar.

2. Select the wireless network to connect, **RD_GUEST** for personal phones / external users & **RD_CORP** for laptop, phones and tablets that need access to internal data

3. (Optional) Check the **Connect automatically** option.

How to connect to Wi-Fi network using Taskbar

4. Click the **Connect** button, enter credentials, and click on Connect & Yes to be discovered by other PCs on the network

RD_GUEST

Password: 856-433-6000

RD_CORP

DO NOT CHECK the BOX / Use my Windows user account
